

# Visendo Fax Server and the Legal Services

An overview

Whitepaper

- ✓ Security, integrity and confidentiality of documents
- ✓ Cost savings
- ✓ Leveraging VoIP environments
- ✓ Integrating with current infrastructure

## Main challenges for the legal services industry

The legal services sector is a heavy user of faxing services due to daily transmissions of legal contracts and agreements. These daily transmissions need to be quickly, securely and confidentially.

More and more legal services companies turn towards VoIP based environments and need to align their faxing to the complex requirements of such an environment.

While trying to leverage the continuously growing demand for transmitting documents via fax, legal companies need to find a solution that would:

- Truly leverage their VoIP environment
- Offer reliability, scalability and easy-to-use administration tools
- Save them as much money as possible while still delivering a best-of-breed solution
- Not be dependent on analog technology (e.g., fax boards/cards, modems, hardware, etc.)
- Be transparent to end-users, who were already sending and receiving faxes via their Microsoft Outlook/Exchange email programs
- Integrate with document management systems, like Microsoft SharePoint, and benefit from the advanced characteristics of these systems.
- Respect regulatory compliance rules

## Visendo Solutions can handle these challenges

Legal services companies, can smoothly integrate [Visendo Fax Server](#) in their existing infrastructure increasing the operational efficiency and enhancing security, confidentiality and integrity of the handled data

Due to the flexibility of archiving, scheduling, integration with SharePoint and Microsoft Office, [Visendo Fax Server](#) is an affordable, yet efficient solution to cover the main challenges of the legal services sector.

[Visendo Fax Server](#) specific features:

- Virtualization: possibility to integrate Visendo Fax Server in a virtual environment with the help of a media gateway (e.g [Lancom](#) or [Funkwerk](#) – click on the links to read more about these cases)
- Flexible scheduling at sending faxes
- Multi layered security filter against electronic threats
- On site documents handling together with Microsoft SharePoint
- Corporate documents search facilities due to the integration of Microsoft TIFF IFilter

Apart from issues of confidentiality and security, faxes can be misplaced or lost, even in the smallest law office bureaus; not to mention the case of large companies with over 100 employees. Moreover, the direct faxing costs which include paper, fax machines, energy used by fax machines are a real issue in today's economical situation.

[Visendo Fax Server](#) offers a great solution to all these problems; companies don't need to use fax machines anymore. The fax server can be easily configured so that every employee receives her faxes in the inbox. This means: no more wasted paper and energy, and above all, no more lost and misplaced faxes.

No matter the size of the company, [Visendo Fax Server](#) can be configured to serve 1 or multiple lines and users yielding flexibility in usability and costs.

## Conclusions

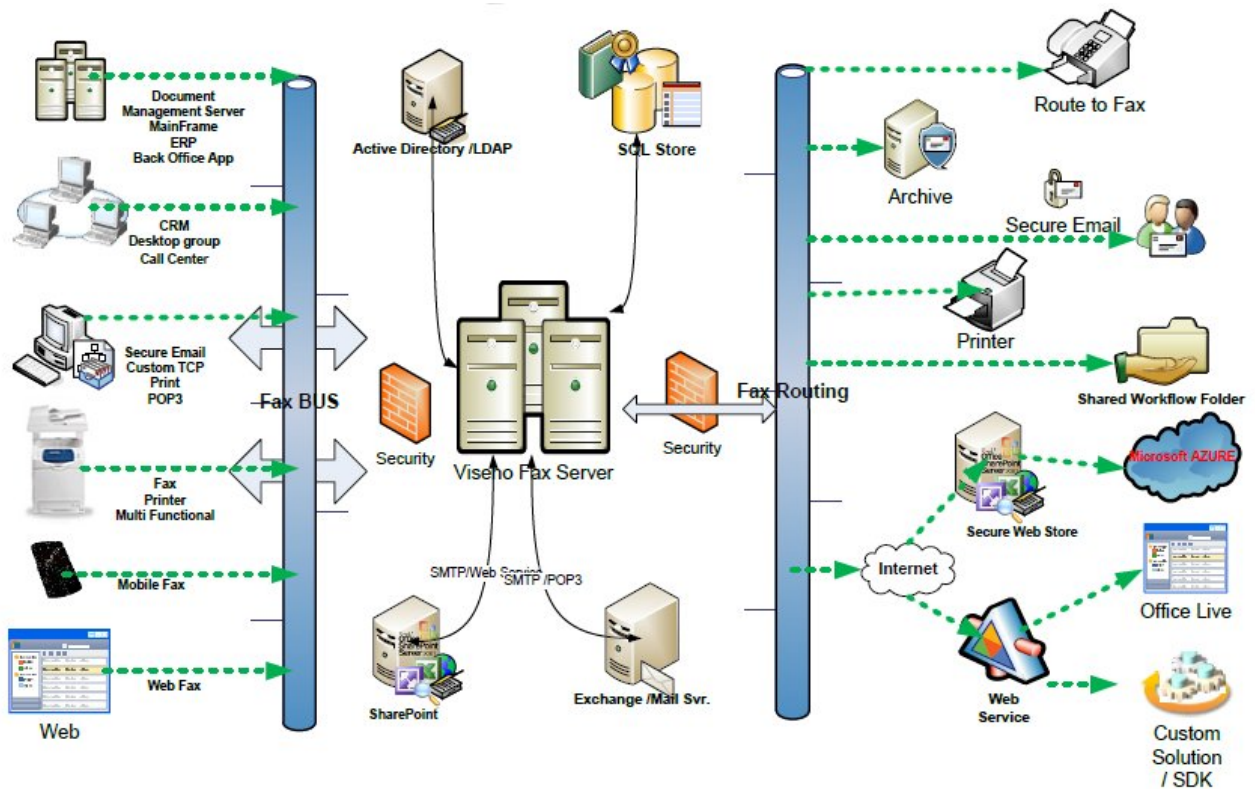

[Visendo Fax Server](#) is a great product that is heavily used in the legal sector yielding effectiveness in terms of security, integrity and confidentiality of documents. Moreover due to the possibility of integrating it with large scale used products (SharePoint, MS Office, Visendo MCS) and due to its virtualization capabilities, it can perfectly fit into any kind of legal services organization.
